

**SCL-101/2017**

**Sub: Visionary consultant for Road & Transport system.**

We are the infrastructural people can help you in many ways such as:-

1. Visualisation of upcoming road structure comprising of existing & future traffic conditions, availabilities of space, all directional views, visualising obstacles, plan the roads & traffic with **unique concept** & micro detailing.
2. Concept designing of proposed complete road & transport system for the particular area & for the particular situation with micro detailing along with study of existing system, solution for the problems & trouble shooting.
3. Vision, concept, economics & quality control strategies for Road, transport & traffic system **with out of box concepts**, line diagrams & layouts with micro detailing, planning, economics, toll calculation etc. complete.
4. **Standardisation of complete road & transportation systems** in detail comprising of various road width & lanes, travelling systems, vehicles types, standardization of necessary public transport system & **separate lane for two wheelers** to avoid traffic jam & to reduce accidents.
5. The very essential services we can offer are the **safety systems for pedestrians** with standardisation of signal systems, zebra crossing, dividers, Bus stops & so on.

**Apart from above overall vision, we can serve you as follows:**

- We can help you in preparing standardisation of road & transport system nation wise with **micro detailing & innovative design**.
- Proper layouts for tenders, line diagrams with visionary concepts. These tenders will be prepared considering local demand & requirement.
- Revaluation, **comparison of the bids** with altogether different concepts & practical solutions.
- Quality control plan, assurance & assistance with exclusive parameters & checking methods.
- Study of existing problems of road & transport systems with particular area such as railway stations, Bus stands, Bus depots etc & **find different comprehensive solution**.
- Entire strategic visionary planning for existing & future road & transport systems which includes innovations (may be first time in the world) & **consultancy from concept to completion**.

**We are waiting for your favourable reply.**
